

A solar generator price list

How much does a solar generator cost?

Good examples include the 6kWh Goal Zero Yeti 6000X, the 4.8kWh Renogy Lycan 5000, and the 5.1kWh BLUETTI EP500. Expect to pay \$5,000-\$8,000 depending on accessories, grid-tie equipment, and solar panel choices. Pre-configured solar generators that can store more than 6kWh of energy are expensive and relatively new.

How much does a 2kWh solar generator cost?

A basic home 2kWh solar generator will cost you between \$1,600 and \$2,000. You could probably power a couple of appliances, keep lights on and recharge devices with a 2kWh solar generator. Our favorite 2kWh solar generator is the BLUETTI AC200P - or upgrade to the AC200MAX, which can be extended by adding additional power packs.

Is a whole house solar generator worth it?

It depends on your needs. If you just want to backup a few appliances, power the lights, and recharge your phone and other gadgets, then a whole house solar generator is worth it. It's FAR less expensive than setting up a home solar system with roof mounted panels, a battery bank, miles of wiring and so on.

Which solar generator should I buy?

Bring it on. The Bluetti AC500, along with the included B300S battery pack, is a beast. With an output of 5000W, it is one of the most powerful solar generators in the market. It's a great choice if you need a highly capable solar generator to run heavy duty appliances. High power output. Expandable capacity. Versatile output ports.

How much does a home backup solar generator cost?

A home backup solar generator capable of powering most appliances, keeping your LED lights on, and keeping your electronics charged and running will cost between \$2,000 and \$10,000 depending on capacity, power rating, and included accessories. Let's look at how these choices will impact how much you'll spend.

How much does a solar power kit cost?

A complete solar power kit for whole home use with batteries, inverter, battery charge controller, safety breakers, grid-tie equipment, installation accessories, and solar panels will cost between \$8,000 and \$30,000 depending mostly on capacity and peak power rating.

To help you, I've got the lowdown on the 10 best solar generator units, together with the pros and cons of each product, so you can choose the one that works for you. I'll also explain how a solar generator works, why you
