

Abandoned photovoltaic panel manufacturers

What if a solar manufacturer goes out of business?

One option for hedging against solar manufacturer bankruptcy concerns is to purchase an extended warranty from your solar installer, which can cover everything from repairs to replacing your panels. This way, if your equipment manufacturer goes out of business, your installer is still contractually obligated to honor its warranty.

Is the solar PV market growing?

The solar PV market has been growing for the past few years. According to solar PV research company PVinsights, worldwide shipments of solar modules in 2011 was around 25 GW, and the shipment year-over-year growth was around 40%. The top five solar module producers in 2011 were: Suntech, First Solar, Yingli, Trina, and Canadian.

Are solar companies going out of business in 2024?

2024 has proven to be a tough year for large solar companies. If you've been following the news, you've probably noticed that the list of solar companies going out of business seems to keep getting longer.

Which solar companies have gone insolvent?

One more solar company, Concentrator Optics, has gone insolvent. The firm had received investment from Capricorn Venture Partners to build Fresnel lenses for the CPV market. It may be an interesting case to consider when approaching a VC firm with a similar pitch today.

Can you sell solar panels if you don't work for a company?

In most states, anyone can knock on your door and try to sell you solar panels, even if they don't actually work for a solar company. (Solar companies contract out sales to something called dealer networks that are essentially sales shops.)

Will there be more people with solar panels stuck on their homes?

Even if the rate of bankruptcies slows, some people in the solar industry think there are going to be a lot more people with solar panels stuck on their homes. When customers sign a solar lease or power purchase agreement (PPA), the solar company agrees to cover the cost of the panel removal when the lease is up, usually after 20 years.
