How can a wedding photographer get a new client?

Use platforms like Instagram, Facebook, and Pinterest to share your images, interact with followers, and attract new clients. Copywriting for wedding photography, for example, can take advantage of these outlets to make their words go the distance.

Are You holding back as a copywriter for photographers?

As a copywriter for photographers, I'm not holding back. Here are the copywriting tips, must-dos and things to avoid, especially in this competitive industry. While these tips can be applied just about anywhere (brochures, proposals, canned emails), they're most applicable to your website.

What are some copywriting tips for photographers?

Any and all copywriting tips for photographers will rest on the strength of your customer persona, so make sure it's sharper than a porcupine's headshot. A customer persona is a semi-fictional representation of your ideal client. It includes details such as demographics, interests, pain points, and goals.

What is blurry wedding photography?

Blurry is a new style of wedding photography that young couples love the most right now. Just like it sounds, these photos are intentionally blurry to give a natural and informal look to your wedding album. That doesn't mean each of your photos has to be blurred, but a few images with the style can add variety.
