

# Buy solar power for home use

Should you buy a solar-powered home?

Buying a solar-powered home can jumpstart your clean energy transition, joining millions of other American households that are powering their lives with sunshine. See more solar energy resources for consumers and learn how solar works.

Are solar panels right for your home?

Solar power is an integral component of our energy future, but you might be wondering if solar panels are right for your home. Thankfully, there are several different options to choose from. This creates an opportunity for all homeowners to live a little greener and with lower energy costs. What Is Solar Power? What Is Solar Power?

Can you install solar panels in your home?

Even homeowners who aren't too familiar with home improvement projects can install panels and access solar power for their homes. These kits feature portable, fixed and off-grid solar panels. As opposed to grid-tie solar panels, off-grid solar panels aren't connected to the utility grid.

Are home solar panels a good idea?

Despite being a leading clean energy technology, there is still a lot of mystery surrounding installing home solar panels. There are several benefits to getting solar panels for your home, like electricity bill savings and powering your home with clean energy.

Are residential solar panels a good option?

Throughout the country, residential solar panels have become an increasingly popular option for generating energy for homes. The rising costs of energy across the US, along with falling prices for solar panels, and excellent federal tax incentives, have made solar power a much more attainable and economically beneficial option for homeowners.

Where can I buy solar panels?

If you want to buy panels directly, most hardware stores and larger retailers have them available. If you'd like to get them through a professional, a good place to start, according to Delman, is the website of your local solar industry association (for example, the New York Solar Energy Industries Association).
