

# Can I buy a new locker key if I lost it

Can I get a replacement key for a cheaper lock?

Sometimes manufacturers streamline their processes and don't stamp the key number on their lock faces, thus saving money. We may be able to supply replacement keys for these cheaper locks, if we could see a picture of the lock face or the key. Please email a picture to [sales@lockdoctor.biz](mailto:sales@lockdoctor.biz) and we will advise further.

Can I get a replacement key if I don't know the key number?

If you recorded the key number, you may be able to get replacement keys from a hardware store or locksmith. If you didn't record the number, contact a locksmith to remove your lock. Please note there will likely be a fee for this service. I lost the keys to my Master Lock lock and don't know the key number. Will Master Lock send me a replacement?

Can a locksmith duplicate a key?

Check with a local locksmith to see if they can duplicate a replacement key. Sometimes, replacement keys are not available for every model of lock. If this is the case, you may need to purchase a new lock. Have you lost the key to your lock?

Should you change the locks if you lose a key?

Also, you can never know for certain if you lost the keys or if someone stole them. If an intruder has your key, it makes it much easier to break into your home, as they don't have to deal with picking the lock. So, changing the locks is a great solution for key loss. However, is it the only option?

Can a locksmith replace a lost car key?

You'll likely have to contact a local dealership instead. A professional locksmith doesn't need a duplicate key to create a new one; they can originate lost house keys by examining your home's lock. If you suspect your car keys were stolen, you should file a police report and work on getting your locks changed.

Can a professional locksmith replace a residential key?

Residential key replacement is often a straightforward process. Whether you've misplaced your keys or need a spare, a professional locksmith can help. They'll typically pick or disassemble the lock to understand its structure, then cut a new key that perfectly fits the lock.
