

Can small lockers be used to store keys

Are key lockers safe?

Key lockers allow property staff and residents to securely store physical keys for trusted guests to retrieve. The three most common alternatives to key lockers are key cabinets, key lock boxes, and key safes. However, none of these options are as reliable or secure as key lockers.

Should you buy a portable key lock box?

Ideal for temporary access: If you need a lock box for short-term use, such as during a vacation rental or for contractors working on your property, a portable lock box might be the perfect solution. Cons: Less secure: Portable key lock boxes might be more susceptible to theft or tampering due to their mobility.

What is a good key lock box?

Another great key lock box recommendation from Master Lock, only this time it's wall-mounted rather than portable in design. It can be used to store up to five keys securely and allows you to set your own unique alpha/numeric key code. Simply set and reset the button combinations as frequently as is required.

Why do you need a key lock box?

By having a key lock box in place, property owners can more effectively manage who has access to their keys, minimizing the risk of theft or unauthorized entry. Overall, using key lock boxes to protect against lost or stolen keys is an important security measure that can help ensure the safety of properties.

How do I choose a key lock box?

When choosing a key lock box, it's crucial to consider whether it will be used indoors or outdoors. Outdoor lock key boxes should be weather-resistant and durable, while indoor lock key boxes can prioritize ease of use and design. Key lock boxes are versatile and can be used in multiple properties in various situations, such as:
