

Who is Chint solar?

Chint Solar is a leading player active in project development, financing, realization and operation of solar parks. We are fully committed to achieving a successful energy transition in Europe, away from fossil fuels to a sustainable future with clean energy. Our mission is to energize people.

Does Chint still make solar panels?

CHINT is a big company -- as in billions of dollars of revenue each year big. It's also diversified, which means they do more than just make solar panels. Hopefully, this increases their odds of still being around in the future to honor their solar panel warranties. The company was founded in 1984 and has around 30,000 employees.

What's new at Chint?

CHINT builds an integrated international R&D, sales, and supply chain platform, lighting up a new vision for green and digital globalization. Come and check out #CHINT's latest #IndustrySolutionSeries! We're excited to continue our series with a focus on building solution!

Is Chint power ESG compliant?

Recently, CHINT Power has successfully passed the rigorous review of the internationally renowned ESG (Environmental, Social, and Governance) management platform, Achilles, demonstrating its exceptional comprehensive ESG competitiveness. Can I Use General Miniature Circuit Breaker (MCB) for PV? Miniature circuit breakers are widely adopted.

What is Chint smart handheld test unit?

CHINT Smart Handheld Test Unit provides a reliable solution for testing ACB protection functions without risk of damage. A surge protective device, also called an SPD, limits overvoltage and prevents potential damage to the electrical equipment.

Why is Chint a greener future?

CHINT believes green solutions and decarbonization are key to driving sustainable development. Our ESG approach integrates economic growth with environmental responsibility and social impact, aligning with global goals for a sustainable future. Explore how CHINT is shaping a greener tomorrow.

Astronergy is currently one of the largest domestic PV power generation enterprises with 8000 MWp module production capacity. The Company's total registered capital is up to 9.38 billion ...

The Chint 10kW On-Grid Solar Inverter is tailored to meet the diversified needs of residential and commercial solar energy systems, fitting for a modern engineering marvel. It offers maximum ...

It is estimated that the annual total power generation will reach to 50 million kWh, reducing carbon dioxide emissions by nearly 50,000 tons, and will contribute to the development of renewable energy in Poland. The 51.5MW PV power ...

The new generation POWER BLOCK2.0 liquid cooled energy storage system of Chint Power has three major product advantages: high specific energy, high performance, and high safety. It is currently the liquid cooled energy storage ...

Astronergy/Chint Solar is a specialized subsidiary of the CHINT group and is engaged in the PV power station development and PV module production. Astronergy is currently one of the ...

On August 1st, the 9.65 MW rooftop distributed photovoltaic project for a renowned business group in Ecuador, undertaken by CHINT, was fully powered and connected to the grid in the ...

Our shade cover is design and manufactured by CPS specifically for use with our 23, 28, 36, 50 and 60kW string inverters. The covers help protect the inverter in harsh weather conditions (snow, ice) and reduces the thermal gain caused by ...
