Is Trina Solar China a good PV module company?

Image: Trina Solar China's PV module companies released their financial reports for 2022 and the first quarter of 2023 at the end of April, with some of the leading manufacturers posting strong performance. Currently, the competition among AAA-grade PV module companies is fierce.

Who is supcon solar?

Though Supcon Solar was one of China's first enterprises dedicated to the research and industrialization of CSP technology, it had previously built only one other project, a 10-MW tower project at the proposed Qinghai site, which it completed in 2013 and outfitted with a molten salt system in 2016.

Will JA Solar expand its production capacity in 2023?

JA Solar plans to expand its module production capacity to 80GW by the end of 2023, with expected module shipments of 60-65GW, representing a year-on-year growth of over 50%. The company also intends to increase the proportion of silicon wafer and cell production capacity to 90% of the module production capacity.
