

Emergency Generator Rental

Where can I rent a power generator?

From movie sets, large events, festivals, to outdoor celebrations, Sunbelt Rentals provides dependable power generator rentals for entertainment venues and special events of all sizes. From initial site survey and installation to event manning and teardown, our power generator experts are on call 24/7 to walk you through every step of the process.

Does Sunbelt Rentals have a generator?

From emergency and portable power generation to supplemental or temporary power needs, Sunbelt Rentals has a reliable generator for your job site or facility. We can make sure you have a dependable source of backup power to fully support your preparedness plan or help you meet outage situations.

Does United Rentals carry power generation equipment?

No matter the job, United Rentals carries the power generation equipment needed for a consistent energy supply. Choose between resistive, capacitive or reactive load banks to ensure the quality and reliability of your backup or emergency power equipment.

Can you rent a gas generator at United Rentals?

You can trust United Rentals' fleet of portable gas generator rentals. Our small, medium and towable gas generators are ideal for light-duty commercial jobs or providing emergency backup power when needed. For our full list of gas generators, view the items below. For more information about gas generators, visit our resource section.

Can I rent a generator?

Rental generators offer a great backup service for essential occasions and when there's a sudden disruption to electricity. We offer diesel or propane generators that can be rented with equipment and related products. Have any questions? Talk with us directly using LiveChat.

Why should you rent a generator?

Our generator rental solutions use remote monitoring technology to ensure efficiency and maximize uptime. This technology also carries sustainability benefits, as it reduces unnecessary power output. Our team of engineers monitors a range of parameters, including loads, maintenance requirements, warning and failure alarms, and GPS locations.
