What is a Energy Star certified AC unit?

An AC unit with ENERGY STAR certification meets federally mandated guidelines regarding energy efficiency set by the U.S. Environmental Protection Agency and the U.S. Department of Energy. ENERGY STAR requires all of its certified central air conditioners and heat pumps to have a SEER rating of at least 15.

Why should I buy a Energy Star air conditioner?

Together we can create a healthier planet for all of us. Together we can create a healthier planet for all of us. Air conditioning equipment that earns the ENERGY STAR saves energy, saves money and helps protect the climate. Visit the Central and Mini-Split Air Conditioners page for usage tips and buying guidelines.

Which air conditioner brand is best for 2024?

Our top-rated air conditioner brand for 2024 is Lennox. We rated the company 4.9 out of 5 stars due to its energy efficiency features, varying unit sizes, and solar-powered options. It also offers high-end products that work with its units, including smart thermostats that connect to devices such as Alexa or Apple HomeKit.

Which air conditioner has a energy star rating?

ENERGY STAR requires all of its certified central air conditioners and heat pumps to have a SEER rating of at least 15. The best air conditioner brand depends on your preferences, budget, and home layout. We find Lennox to be one of the best AC brands due to its high SEER ratings, smart home capabilities, and SunSource technology.

Are Trane air conditioners Energy Star rated?

American Standard names its units with Platinum (most efficient), Gold and Silver. The ratings are based on efficiency and performance rather than quality. Trane doesn't give names indicating these things. Efficiency ratings: 14.5 SEER to 22 SEER. Most units are Energy Star qualified.
