

Formal contract for leasing photovoltaic panels on roof

What is a solar lease?

Solar leases are very similar to power purchase agreements (PPAs). With both options, a solar developer installs and owns the solar panels on your roof. The two differ in how you pay for the solar energy. Solar lease payments are the same every month, whereas solar PPA payments are based on the amount of energy the panels actually produce.

Should you lease or buy solar panels?

Homeowners do get to take advantage of net metering, so the solar panels still lower or eliminate their electric bill. Solar leases provide predictable monthly payments, increase access to solar, and have no maintenance costs for the homeowner.

Can you sell a solar system under a lease?

Under a solar lease, you won't own your solar system, but will still benefit from its generated electricity. A leased solar system can make selling your home more difficult because the next owner may not want to take over your lease payments. What is a solar lease?

What is a commercial solar lease agreement?

"kWhac" is the kilowatt-hour alternating current. A commercial solar lease agreement differs from a Solar Power Purchase agreement (PPA). In a PPA, you buy the net amount of solar power you use from the meter at a fixed rate per kWh. However, with a solar lease agreement, you generally pay a fixed monthly amount.

What is the difference between a PPA and a solar lease agreement?

In a PPA, you buy the net amount of solar power you use from the meter at a fixed rate per kWh. However, with a solar lease agreement, you generally pay a fixed monthly amount. That monthly amount allows you to use all the output energy the solar equipment generates.

How long does a solar lease last?

Solar lease term lengths are usually between 20 and 25 years, which is about the lifespan of solar panels. The solar developer will usually offer a solar monitoring program so you can track how your solar panels are performing. If an issue with your system is detected, the developer will be responsible for repairs at no cost to you.

A solar lease allows you to lease the panels from a solar provider, but you never legally own them. A cash purchase makes you the system's owner and qualifies you for added solar savings from solar tax ...
