

With the development of the new situation of traditional energy and environmental protection, the power system is undergoing an unprecedented transformation[1]. A large number of ...

The 100 MW Dalian Flow Battery Energy Storage Peak-shaving Power Station, with the largest power and capacity in the world so far, was connected to the grid in Dalian, China, on ...

Haidi's lithium solution for AGV is a comprehensive, self-managed battery system designed to meet the cost, performance, efficiency and durability requirements of the rugged warehouse environment. It includes application-specific cell ...

The total cost of the new energy station is 1,430,200 yuan, with a total profit of 656,200 yuan. In Scenario 2, the renewable energy station is equipped with wind turbines of ...

These three new energy storage power stations on the side of the power grid can increase the short-term emergency peak capacity by 200,000 kilowatts for the Nanjing power grid, meeting the daily ...

At Haidi, we design and manufacture purpose-built NMC, NCA, LiFePO₄ cylindrical and prismatic battery cells and stored energy solutions to meet our customers' needs. In terms of the Safety, Energy Density, Lifespan, C-Rate, ...

The lithium batteries produced by our company have their application field in various facilities, like electric cars / electric motor / e-bikes / electric tools / solar photovoltaic and wind power ...

The battery range is suitable for a wide range of applications. Such as: lead-acid replacement, medical equipment, electric yachts, telecommunications, UPS, backup power, military electric equipment, electric vehicles, energy storage ...
