

How to deliver photovoltaic panels to your home

How do I install my own solar panel array?

The easiest way to install your own solar panel array is to buy a solar panel kit. The main solar components that come with every solar power system or solar panel kit are: Solar Panels Solar panels convert sunlight into electricity through a process called the photovoltaic effect.

How do I prepare for a solar panel installation?

Installing solar panels helps homeowners save money and invest in cleaner energy. To prepare for an installation, determine your energy needs and home compatibility with a solar panel system. The installation requires complicated electrical work and paperwork that any reliable solar installer can handle.

How do you connect solar panels to a solar panel?

Connect the panels using cables, whether wiring in parallel or series. Optimal placement is critical for getting the most from your investment. 6. Connect Your Battery and Inverter to Your Panels With the panels set up, it's time to connect the battery and your inverter to the solar array.

How do I connect my solar panels to the grid?

Interconnection agreement: This agreement allows you to connect your solar panels to the grid system through your local utility company. You can also apply for net-metering programs, which allow homeowners to sell excess energy back to the grid for electric bill credits and payouts.

How do I determine my home's solar rooftop potential?

Determine your home's solar potential. Aside from your roof's condition, your home's solar rooftop potential depends on your geographic location, the position of your home in relation to the sun, how much shade you have, and the PV system you and your installer choose.

Should you hire a certified solar panel installer?

Your solar panel system installation should be quick, efficient, and minimally disruptive to your life and home. To make sure your panels go up without too much fuss - and are set up to generate the most electricity possible - you should hire an accredited, certified installer, like Sunsaver.
