

# How to install the generator wind deflector

How do you install a wind deflector?

Let the window frame dry before fitting in the deflector. If you install the deflector while the window frame is still wet, your deflector may not attach as tightly. Give the windows time to air dry or wipe the frame and slot down with a dry towel before you prepare your wind deflector. Place the wind deflector into the top window channel.

How do wind deflectors work?

Wind deflectors allow you to open your car window during a stormy day without getting rain on your upholstery. They can also reduce the noise made when you roll your window down by deflecting the wind away from your window. Because wind...

How do I install a window deflector?

Lay out each deflector with the WeatherTech logo positioned towards the rear of the vehicle. 3. Insert Window Deflector into the Channel: Once the windows and channels are dry, it's time to begin the window deflector installation in earnest. Start on the driver's side by lowering the window about halfway.

How do you clean a wind deflector?

Clean the window frame and channel. Spray a window cleaner or mild solvent over the tops and sides of the window and wipe it off with a paper towel or dry cloth. Rub off any dirt, dust, or debris in the window frame so your wind deflector will fit in securely.

How do you remove a wind deflector from a car?

If the wind deflector does not align with the top of the window, it may be the wrong size. Remove the remainder of the adhesive tape. Pull on the adhesive tape's end strips until you have entirely removed them from the wind deflector. Apply pressure to the wind deflector as you peel off the tape to stick it firmly on your car.

How to choose a wind deflector?

Buy wind deflectors made for your car model. Wind deflectors are specially designed for different car models. Make sure that the wind deflectors you buy are suitable for your car. If you purchase the wrong kind, you will not be able to achieve a perfect fit. You can find the car model information on the wind deflector's packaging.
