

How to make an outdoor energy storage cabinet

How to create DIY outdoor storage?

A storage box is the most obvious solution for creating DIY outdoor storage and this free plan will show you just how to build one. While the inside is perfect for storage, the outside is elevated with trim, making it look like a nice piece of furniture that you might purchase. The top can be used as a bench to sit on or as a coffee table.

How do patio storage cabinets work?

Wheels are attached to the bottom so you can easily move it wherever you like. These patio storage cabinets are the perfect solution to an outdoor kitchen but also can be used in any outdoor area. Standard base cabinets are used and the doors are given a fresh coat of paint before being ready to use.

What is a good outdoor storage idea?

Here's a DIY outdoor storage idea for all the outdoor or garage toys that your children might have. It's really a two-tired bench that would look great outside or you could even use it inside to corral toys. The lips on the shelves make it a great place to store anything that might roll away, like toy trucks or balls.

How do you build an outdoor bench?

It's an easy build, using just one sheet of plywood for the basic box. Pine trim is used for the decorative inlay which really makes this project shine. This outdoor bench is not only a great place to sit and relax when you're outdoors, but it has a ton of hidden storage right under the seats.

How do you electrify a cabinet?

I electrified the cabinet by using a candleabra base light socket; you can suit yourself about how you do this, but I added a 1N4004 diode in series with the bulb. This diode divides the voltage to the bulb in half, and so the power consumption. It has the effect of making the bulb last a teriffically long time.

What kind of wood is used for outdoor storage?

Pine trim is used for the decorative inlay which really makes this project shine. This outdoor bench is not only a great place to sit and relax when you're outdoors, but it has a ton of hidden storage right under the seats. This DIY outdoor storage solution gives you a whopping five sections of storage that no one will even know is there.
