

How to report illegal installation of photovoltaic panels

Is installing solar panels illegal in any state?

Technically, no state outlaws or bans solar panels; quite the opposite. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies.

Are solar panels legal?

In fact, the government has been supporting solar panels by providing support and financial incentives. Certain homeowners associations (HOAs) prohibit solar panel installations, but these are generally illegal and unenforceable. Generally, you may assume that solar panel installations are acceptable, even encouraged by the government.

Are solar access laws illegal?

With that being said, unpermitted systems are illegal to operate in many American jurisdictions, even in states with solar access laws. What is the difference between solar access laws and solar easement laws?

Can HOAs ban solar panels?

In short, HOAs cannot ban installations of any solar energy device. Still, they may regulate it on aspects such as approving only certain types of solar energy devices, providing maintenance, and requiring homeowners to apply for approval before installing solar panels.

Are solar panels a hazardous waste under RCRA?

If these metals are present in high enough quantities in the solar panels, solar panel waste could be a hazardous waste under RCRA. Some solar panels are considered hazardous waste, and some are not, even within the same model and manufacturer.

Will EPA add solar panels to Universal Waste Regulations?

On October 23, 2023, EPA announced a new rulemaking effort to improve the recycling and management of end-of-life solar panels and lithium batteries. EPA is developing a proposed rule to add solar panels to the universal waste regulations and to add tailored universal waste standards for lithium batteries.
