

How to use the photovoltaic panel disassembly and assembly tool

How to remove MC4 connector from solar panel?

Disconnect the MC4 Connector of Each Solar Panel: After everything is ready for disconnection, unplug the MC4 connector at the end of each solar panel. You can easily do this by using the disconnection/connection tool for MC4 connectors. If you lost it or did not have it at hand, you can always use a socket wrench to replace it.

How do you disconnect a solar panel?

Insert the Tool: Insert the MC4 disconnect tool into the gap between the two locking tabs of the connector. PV solar panels produce voltage as long as they are exposed to light. This means that even if your system is not connected to the grid, the panels can still generate electricity.

How do you remove a solar panel?

Dismount the Solar Panel by Removing Bolts, Screws, and Clamping Nuts: If this is not a portable solar panel and you need to move it, you should remove the bolts, screws, and clamping nuts at the mounting hardware used to fix the panel in place.

How do I install a solar panel?

If you are installing on solar panels, ensure the correct polarity by connecting the male and female connectors appropriately. Positive to positive and negative to negative. There will typically be a + and - indication on the junction box and the MC4 connector. Twist of the back end of the MC4 connector and remove from front housing.

How do I connect solar panels in parallel?

To connect solar panels in parallel, you require an additional component known as an MC4 combiner (or MC4 multi-branch connector), this name differs for other types of solar panel connectors. The image above illustrates a 4-in-1 MC4 combiner, but these components can be 2 in 1, 3 in 1, and so on.

Do solar panels come with a solar connector?

Solar panels do not always come with the solar connector attached. Attaching a solar panel connector to a PV wire is a two-step process: (1) crimping and (2) tightening the connector, to do this you require a wire stripper, crimping tool, and a solar panel connector assembly tool.
