

# Huawei machine testing solar panel bracket

How to install a solar inverter mounting bracket?

Before installing the mounting bracket, remove the security Torx wrench and keep it for later use. The mounting bracket of the solar inverter has four groups of tapped holes, each group containing four tapped holes. Mark any hole in each group based on site requirements and mark four holes in total. The two round holes are recommended.

Why should you choose Huawei Smart Module Controller?

Huawei smart module controller endures all the extremes and stands the test of time. Each solar panel works independently, unaffected by other panels. More solar panels can be installed. Solar panels can be installed in different orientations. In case of danger, the high-voltage rooftop can quickly transition to a safe state.

Can a Huawei inverter be installed outside in Salt areas?

Before installing the inverter outdoors in salt areas, consult Huawei. A salt area refers to the region within 500 meters from the coast or prone to sea breeze. The regions prone to sea breeze vary with weather conditions (such as typhoons and monsoons) or terrains (such as dams and hills).

Is Huawei liable if a device is faulty?

Huawei shall not be liable for any consequences caused by the violation of the storage, transportation, installation, and operation regulations specified in this document and the user manual. Use insulated tools when installing the device. For personal safety, wear proper personal protective equipment (PPE).

Can you touch energized Huawei equipment?
