

International ranking of wind turbine generators

What are the top 5 wind turbine manufacturers in the world?

Showing 10 out of 50 companies. Vestas Wind Systems AS, Siemens Gamesa Renewable Energy SA, GE Renewable Energy, Enercon GmbH, Nordex SE, and Nordex SE are the top 5 wind turbine manufacturers in the world by capacity (as of March 31, 2022).

Who is the world's largest wind turbine manufacturer & supplier in 2022?

According to the latest data from BloombergNEF (BNEF), Denmark-based wind turbine company Vestas remained the world's largest wind turbine manufacturer and supplier in 2022, thanks to its wide geographic diversification strategy and strong performance in the U.S. market.

Are Chinese wind turbines the world's top five wind turbine manufacturers?

"It's no surprise that Chinese turbine makers dominate the top five in our ranking, as buildout of gigawatt-scale wind projects and an end to pandemic restrictions sent installations soaring last year," said Cristian Dinca, wind analyst at BloombergNEF and lead author of its 2023 Global Wind Turbine Market Shares report.

Which countries have the largest wind turbine market?

Currently, Asia-Pacific is the largest wind turbine market in terms of cumulative installed wind power capacity with nearly 50% share in 2019, followed by Europe and North America with a share of 33% and 20%, respectively. South and Central America and the Middle East and Africa had small shares of less than 3% each in the same year.

Why is Siemens Gamesa a top 10 wind turbine manufacturer in 2022?

Siemens Gamesa, the latest merger between Siemens Wind Power and Gamesa, ranked second in the world's top 10 wind turbine manufacturers list in 2022, primarily due to its strong position in the offshore sector in India and improved position in the United States. Siemens Gamesa is currently the global leader in the offshore wind market.

Which wind companies have the most GW installed in the world?

Note: Wood Mackenzie bases its analysis on grid connected capacity in all wind markets, apart from China and Vietnam. Outside of China, Vestas was the market leader for the sixth consecutive year, with more than 10 GW installed. Siemens Gamesa (SGRE) overtook General Electric (GE) for the second position.

In terms of the geographical split, 6 out of 10 of the world's wind turbine manufacturers are based in Europe, while the remaining are based in Asia-Pacific. They employed a total of 100,677 people in 2021. Denmark ...

Energy Digital Runs Through the World's Leading Companies Operating in the Wind Power Industry, Including GE, Siemens and NextEra Energy. Ember's latest yearly electricity generation, capacity, emissions

International ranking of wind turbine generators

and ...

GE Wind Energy Limited - International Players. GE Wind Energy Ltd., a global wind turbine manufacturer, was founded in 1980 in Fairfield, Connecticut. The company primarily manufactures low and medium-voltage ...

China dominates global onshore wind turbine nacelle assembly with 82 GW of identified annual capacity. With 21.6 GW of annual assembly capacity per annum, Europe is the world's second largest onshore turbine nacelle production base, ...

China accounted for 65% of global wind capacity in 2023, which pushed four Chinese wind turbine original equipment manufacturers (OEM) into the top five global rankings, a first for the sector. With a record of 16.3 ...

1 · The top five for wind turbine makers was dominated by Chinese manufacturers. Xinjiang Goldwind Science & Technology (SHE:002202) retained the top spot with 16.4 GW of projects commissioned last year. Envision ...

Danish manufacturer Vestas held the title as the world's largest supplier of wind turbines in 2020 across onshore and offshore wind, thanks to the manufacturer's wide geographic diversification strategy, with new installations ...

London and New York, March 27, 2024 - Global wind capacity additions surged to a record high of 118GW in 2023, according to a new report by research provider BloombergNEF (BNEF). ...

Wind turbines are the fastest-growing renewable energy source, and wind energy is now cost-competitive with nonrenewable resources. (Courtesy: ©Can Stock Photo/ssuaphoto) The global capacity for generating ...

Largest Wind Power Companies Research Summary. The largest wind power company in the world is Siemens, with a revenue of \$78.03 billion. As of 2022, the global wind power market size is \$100.66 billion. There ...

--This paper discusses the currently used generator systems in wind energy conversion systems and some of the newer concepts with their technical features. ... Vestas occupied the number ...
