

Investment in photovoltaic energy storage business

Is solar energy a good investment?

Solar energy represents an enormous market opportunity. To decarbonize the economy, the U.S. needs to invest an estimated \$1.2 trillion in solar energy developments alone through 2050. Meanwhile, the global investment opportunity for solar is even larger. Many companies focus on solar energy and should benefit from the sector's growth.

Is Brookfield Renewable Partners a good solar investment?

Brookfield Renewable Partners, which is structured more like a utility company than others on this list, is a fast-growing solar investment to consider. BEP specializes in renewable energy produced by solar farms as well as hydroelectric and wind-generation facilities.

Does Tesla separate solar and energy storage revenue?

Tesla doesn't separate solar and energy storage revenue. More importantly, the cost of revenue for its solar and energy storage business was \$781 million, meaning that for the first time the total cost of producing and distributing these energy storage products was lower than the revenue it generated. That's good news.

Which energy storage stocks are a good investment?

Albemarle is the top holding, followed by Tesla, so if you can't decide from the previous stocks, this fund is a good one-stop investment to play the pending energy storage boom. With more than \$1 billion under management and about 60 components, this First Trust fund is another interesting and diversified way to play energy storage.

Are lithium batteries the future of energy storage?

You'll have to make your peace with Tesla making most of its profits from electric vehicles rather than storage, but that may not be too much of a deterrent for many investors given the fact that Tesla has nearly doubled year to date in 2023. Lithium batteries are seen by many as the future of energy storage.

How big is Tesla's Energy Storage business?

Tesla's energy storage business is still peanuts compared to Tesla's automotive business, but it's growing fast. "It's now at over \$1 billion a quarter for the first time"; Multiply by 6 when Lathrop is fully ramped, hopefully by the end of the year. Margins could be as high as 50%, with a waiting list, as of now, of two years.
