

What is the best type of solar panel financing?

For many people, the best type of solar panel financing is probably a personal loan for solar. A personal solar panel loan will come with fixed interest rates and fixed monthly payments that never change during the life of the loan. Some home improvement loans have higher limits or longer terms to make it easier to pay for more expensive options.

Can you get a loan for solar panels?

Some personal loan lenders offer home improvement loans for solar panels with terms of up to 12 years. Solar contractor financing may come with longer terms, such as 15 or 25 years. Choosing a shorter term will save you money on interest. Just make sure you can afford the monthly payments. What Happens If I Default on a Solar Panel Loan?

How do I choose a solar panel loan?

Follow these tips when comparing solar panel loans: Consider solar panel specialty loans. Look for solar-specific loan products, such as financing offered by the solar panel manufacturer or installer. Take time to find the best option. Shop around to find the best deal. Be sure to consider interest rates, terms and fees. Review your terms.

Where can I get a solar loan?

Many different institutions offer solar loans, including local and national banks, specialty financing companies, manufacturers, and credit unions. To choose the best solar loan for you, compare options from a few different financing providers. Use the EnergySage Solar Marketplace to review multiple equipment, installer, and financing options.

How do I get solar panel financing?

Depending on your location and the panels you're buying, there may be several ways to get solar panel financing. Start by asking the solar panel manufacturer and installer whether it offers in-house financing. This can be a good option if you don't have good credit or want a streamlined loan process. Ask around for referrals.

Are solar panel loans a good idea?

Solar panel loans are generally secured by the panels themselves. This means that if you default, your panels can be repossessed by the loan provider. One thing to keep in mind, though, is that these loans typically come with lower interest rates, so repayment may not be as financially challenging as an unsecured loan.
