

# Longyuan Solar Power Generation Project

How has Longyuan Power developed new energy?

Focusing on key breakthroughs, the development of new energy reached new heights. Longyuan Power added 54 gigawatts to its resource reserves, all located in areas with high-quality resources, while 22.75 gigawatts of projects are approved.

What is Longyuan Power?

By strengthening innovation, Longyuan Power creates advantages in digital and intelligent technology. Longyuan Power continuously optimized its digital platform for new energy production, enhancing smart operation capabilities.

How much money does Longyuan Power make a year?

According to Chinese accounting standards, the company achieved an annual revenue of 37.642 billion yuan, with a net profit attributable to shareholders of the listed company of 6.249 billion yuan. Longyuan Power's "Ningxia-Hunan Direct Current" and its 1 million kilowatts photovoltaic desertification control project phase I.

How many megawatts does Longyuan Power have in 2023?

In 2023, the company added 1,562.55 megawatts of controlled wind power installed capacity and 2,947.28 megawatts of controlled photovoltaic installed capacity. By strengthening innovation, Longyuan Power creates advantages in digital and intelligent technology.

What is Longyuan Power's 'Ningxia-Hunan direct current' project?

Longyuan Power's "Ningxia-Hunan Direct Current" and its 1 million kilowatts photovoltaic desertification control project phase I. Longyuan Power consolidated its safety and environmental protection baseline, with production and operation quality steadily improving.

When did Longyuan Power hold its 2023 ESG report release conference?

On March 28, Longyuan Power under CHN Energy, held its 2023 Annual Performance Briefing and ESG Report Release Conference in Beijing via a combination of video and teleconference.

Jiangxi Longyuan Qianshan Solar PV Park is a 150MW solar PV power project. It is located in Jiangxi, China. According to GlobalData, who tracks and profiles over 170,000 power plants ...

China's first hybrid energy power station utilizing both solar and tidal power to generate electricity became fully operational on Monday in Wenling City of east China's Zhejiang Province. The project marks the country's latest ...

# Longyuan Solar Power Generation Project

Based on the measured solar radiation and power generation data of a 5.6 kW PV grid-connected system in Beijing from June of 2012 to December of 2016, the differences ...

China Longyuan Power Group (HKG:0916), in partnership with a unit of Shanghai Electric Power Co (HKG:2727), has completed what is said to be the world's first maritime renewable energy project that combines deep-sea ...

Longyuan Butuo Solar PV Park is a 20MW solar PV power project. It is located in Sichuan, China. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the ...

Longyuan Power Group and Shanghai Electric Wind Power Group, a subsidiary of Shanghai Electric, have completed the world's first maritime renewable energy project that combines deep-sea floating wind ...
