

New Energy Storage Mainstream Battery Stocks

Should you invest in battery stocks?

Investors have many ways to play the "green wave," or the pivot to a net-zero carbon world, but alongside EV stocks, hydrogen fuel cell stocks, solar stocks and other renewable energy plays, battery stocks are another strong choice. A big reason is that the pivot away from fossil fuels will not happen without advanced battery technology.

What are the best solid-state battery stocks?

Below is our selection of the top seven solid-state battery stocks to watch. QuantumScape is a company dedicated to developing solid-state lithium batteries for electric cars. Backers include Volkswagen and Bill Gates. Solid Power develops solid-state cell and high-tech sulphide solid electrolyte batteries. Major partners include BMW and Ford.

Should you buy EV battery stocks?

Investors don't have to pick a winning automaker -- they can buy shares of battery stocks instead. The range of options in EV battery stocks goes from pre-revenue to one of the world's biggest automakers. The automotive industry is going electric. Every major automaker is actively developing or already selling electric vehicles (EVs).

Are battery Stock Exchange-Traded Funds a good investment?

Battery stock exchange-traded funds like BATT provide investors with exposure to leading U.S.-listed names in this space -- some of which will be discussed in further detail below. BATT also has holdings in foreign-based battery technology companies that are difficult for stateside investors to buy.

Is BYD a good EV stock?

(OTCMKTS: BYDDY) may be considered one of the top EV stocks, but this China-based company is also one of the top battery stocks as well. In fact, before becoming one of the leading Chinese makers of battery electric and hybrid vehicles, BYD made its bones in the battery technology space. BYD's leadership in this industry continues.

Should you buy battery stocks in 2024?

The International Energy Agency predicts a tenfold increase in battery demand for electric vehicles over the next decade. Battery stocks haven't fared well for much of 2024, but a big rally has put them back in the spotlight. The Global X Lithium & Battery Tech ETF (ticker: LIT) gained more than 20% in September.
