Who is Yingli Solar?

Playing a Leading Role in Compilation of Photovoltaic Industry Standards. promoting the development and application of clean energy. Yingli Energy Development Co.,Ltd. (Yingli Solar) is a smart PV energy solution provider integrating PV technology R&D, intelligent manufacturing, and development, construction and operation of power plants.

Are Yingli solar panels a good choice?

Yingli Solar has modules that range from 315 - 450 watt solar panels, which is a solid range to choose from. Either one of Yingli's residential solar panels will provide enough power to keep your home's electricity running. A solar panel's efficiency rating represents the amount of energy absorbed that will be turned into electricity.

Who is Baoding Jiasheng photovoltaic technology?

Baoding Jiasheng Photovoltaic Technology Co.,Ltd., (Gain Solar) a subsidiary of Yingli Group, is a leading expert in carbon-neutral solutions. Since our establishment in 2007, we have been dedicated to providing innovative building-integrated photovoltaic (BIPV) green materials, such as solar tiles, solar floor panels and ect.

Where is Yingli Solar headquartered?

Headquartered in Baoding, China, Yingli Solar has offices in Australia, Japan, and the United States. The company boasts over two decades of industry experience and a worldwide marketing network.

Does Yingli Solar recycle electrical appliances?

Yingli Solar is a member of PV Cycle, the European association for voluntary take back and recycling of PV modules. Please contact PV Cycle at [www.pvcycle.org](http://www.pvcycle.org) for details regarding the recycling process. Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities.

Can Yingli Solar PV modules be cleaned with a pressure washer?

Water with high mineral content may leave deposits on the glass surface and is not recommended. Yingli Solar PV modules may contain a hydrophobic anti-reflective coating on the glass surface to enhance power output and reduce dirt and dust buildup. In order to avoid module damage, do not clean PV modules with a power washer or pressure washer.
