What is a Geda solarlift?

The GEDA SolarLift is the smart solution for lifting solar panels, racking and tools up, onto and across the rooftop. The solar platform is designed to carry up to 9 x 35mm panels or 8 x 40mm thick panels at one time at a speed of 30m/min. The rubber padding and solar clamping arm ensure that the panels are delivered securely and safely.

Does altrex have a solar lift system?

Altrex, a scaffolding and ladder producer in the Netherlands, has developed a new modular lift solution for solar panels. The system can raise one solar panel at a time and can be operated by a single installer using nothing other than a cordless drill, the company claims. The new Shuttle system by Altrex. Can altrex lift PV modules?

Altrex's new system can lift PV modules. The company - based in Zwolle, in the eastern Dutch province of Overijssel - claims that the system can lift loads of up to 30 kg. It can also be equipped with a carrier that comes with its own console.

Can scaffolding be used in rooftop PV projects?

Altrex - a Dutch company that produces ladders, scaffolding, and suspended platforms - has developed a new modular lift system for solar panels that can be used in rooftop PV projects. It says that its "Shuttle" system is light and easy to handle and mount, and can be operated with just a cordless drill.

What is a Solmetric module lift?

Description The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder.
