

Photovoltaic support equipment auction

How do solar auction sites work?

Auction sites operate bidding platforms and usually assess both the winning-bid buyer and the seller with fees and premiums at the time of sale. EnergyBin is a member organization comprised of vetted solar companies who pay annual dues to connect with other members, share market intelligence, and buy & sell wholesale solar equipment.

Should you sell your solar equipment at a solar auction?

The flexibility to sell single parts comes in handy for legacy models or project leftovers that attract buyers who are looking for replacement parts. While on auction sites, solar equipment lot sizes are large (usually starting at 500 kilowatts and spanning into megawatt levels).

Are energybin auction sites reputable?

EnergyBin has many reputable resellers that work with buyers on inspection terms. They recognize the importance of preserving their business reputations. Whereas, auction sites promote AS IS, WHERE IS and usually don't allow buyers to inspect lots in advance to purchase.

Five joint solar-PV auctions totalling 1 GW have been held since 2018, and all was awarded to solar PV with average prices ranging from EUR 47/MWh to EUR 57/MWh. PV additions are expected to decline in 2022, largely due to a ...
