

# Ranking of non-Sci-Tech Innovation Board photovoltaic companies

Does sinovoltaics have a PV module manufacturer ranking report?

Did you know? Sinovoltaics has been publishing its PV Module Manufacturer Ranking Report since early 2016 and is the first and only independent source for PV Module, Inverter, and Energy Storage Manufacturer Ranking Reports based on their financial strength. Download the PV Module, Inverter, and Energy Storage Ranking Report for free.

Who are the top 20 solar module manufacturers?

The module shipments of the top 20 manufacturers increased by more than 50% year-on-year, of which the shipments of the top four accounted for 59.95% of the total shipments of the top 20. The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as previous year.

Who are the top solar companies in the world?

The company was followed by Trina Solar, JA Solar, and JinkoSolar, with the latter losing the first position reached a year earlier. Canadian Solar and Risen reached the fifth and sixth positions, respectively, followed by two non-Chinese producers, Hanwha Q Cells and First Solar.

Which companies are leading the global PV module market in 2022?

A total of 18 Chinese companies were selected in the top 20 list, with a total output of more than 270GW in 2022, gradually taking over the global PV module market with their unique advantages. LONGi, the king of the PV industry, supplied 46.76GW of modules in 2022, up 21% year-on-year.

Who makes the best solar modules in 2022?

TrendForce has ranked the top six module manufacturers by shipment volume in 2022, with Longi topping the list, followed by Trina Solar and JinkoSolar. JA Solar, Canadian Solar, and Risen Energy rounded out the top six, in a year dominated by large-format modules.

Which solar companies dominated the solar market last year?

JA Solar came in fourth with 39.75 GW, followed by Canadian Solar with 21.1 GW, and Risen Energy with 16 GW. High-power, large-format modules dominated the market last year, according to TrendForce. With advancements in n-type technology, 210 mm products have already become mainstream and will continue to rule the market, said the research firm.

China is rich in solar energy that over 2/3 of the country has more than 2200 h of sunshine annually (Zhang and He, 2013) and has long dominated China's energy structure ...
