

Rural House Photovoltaic Panel Installation Scam

Are solar panels a scam?

Here's how to steer clear of the scams: Do some research. Avoid solar companies that say a government program will cover the whole cost of solar panels -- or say they're from (or affiliated with) the government. These are lies. If you're looking at solar energy for your home, get quotes from reputable providers with a valid license.

What if I Can't get solar panels installed on my home?

If you are unable to get panels installed on your home, you can still benefit from solar energy through community solar. This entails a single solar array installed in one location and shared among multiple households. Costs are divided among the people sharing the solar system.

How do I know if a solar company is a scam?

Be wary of solicitors. Always verify the identity and credentials of anyone claiming to represent a solar company. Unscrupulous solar companies may employ aggressive or dishonest sales tactics to close deals quickly, especially if the proposed solar installation isn't in your best interest.

Are solar panels free?

As far as actual free solar panels go, there are some small programs in places, like the Solar for All program in Washington D.C., geared toward low-income households that offer modestly-sized solar panel systems for free. Very few homeowners will be able to qualify for these low-income solar programs. How much will solar panels cost you? 2.

Are solar panels eco-friendly?

Solar panels offer a low-maintenance solution for sustainable energy. While harnessing solar energy is a green initiative, some people worry about the eco-friendliness of solar panel production. However, solar panels often offset the energy used in their manufacture within one to four years of operation.

Does the federal government install solar systems in homes for free?

The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy. Take your time.

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal. Here's what you should know.
