How much does a solar PV installer make?

Average salary range: \$21.75+ per hour. Credentials: Any prior related experience, training, or certifications recommended. Some companies may require licensing or certifications. Job description: Solar PV installers are the people you see getting solar panels up on roofs.

Is working in the solar industry a good career path?

Yes, working in the solar industry is a great career path for a number of reasons. A lot of jobs in the solar industry are easy to get started in, with most jobs in the manufacturing, installing, or sales sector not requiring a college degree. Not to mention, solar certification courses are very accessible; most of them can be completed online!

What are the different types of solar installation jobs?

These jobs are widely available, as solar installation companies are located nationwide. PV installers do a lot of work on roofs, laying down the solar racking system, panels, and wiring. Other areas of PV installation can include battery installation, site assessment, and roofing. Disclaimer! Working in solar can be physically demanding.
