What is a Jinko Solar 540W Solar Panel?

The Jinko Solar 540W Solar Panel is a monocrystalline module with 144 cells (6x24) manufactured by the leading solar manufacturer, Jinko Solar. It is ideal for both isolated photovoltaic solar energy installations and those connected to the electricity grid.

How many cells are in a 540 watt solar panel?

To give you an idea, a standard 540 watt solar panel is approximately 88 x 46 inches and tips the scales at around 72 pounds. Most modules with this output rating are monocrystalline and typically have at least 72 cells (144 half-cut cells). Efficiencies vary widely from brand to brand, but most monocrystalline options fall into 18-22% range.

What is the warranty on 540 W solar panels?

Installing 540 W solar panels is simple enough, despite their larger size compared to standard panels. They typically come with a 25-year warranty, though some higher-end brands offer 30-year protection. Use our solar calculator to determine the optimal size for your installation.
