

Solar charging live broadcast bracket

How do you charge a reveal solar panel?

This solar panel features an integrated lithium battery and can be charged by sunlight or by using the charging cable. This solar panel has 73% more capacity than the previous REVEAL solar panel and features an all-new integrated mounting bracket making it easier than ever to set up.

Can a solar panel mount charge a camera?

Yes, as long as your camera receives adequate power from the Solar Panel Mount it will have full functionality, exactly the same as when it's powered by the camera's 2 AA 1.5 volt batteries. It is important; however, to keep functional batteries in your camera, in case your solar panel battery has no charge.

Does a solar panel extend the battery life of a blink camera?

No, the Solar Panel simply provides external power to your Blink Outdoor (3rd Gen) Camera, which may extend the life of your camera's batteries. What kind of battery is used in the Blink Solar Panel Mount?

Can I use a solar panel mount with a blink outdoor camera?

No, the Solar Mount can only be used with Blink Outdoor (3rd Gen) cameras. Other Blink outdoor cameras (Outdoor 4, XT or XT2) are NOT compatible with its Micro-USB connector to provide a weather resistant seal. Does my Blink Outdoor (3rd Gen) camera have full functionality when powered by the Solar Panel Mount?

How do I charge my solocam?

You can charge your SoloCam using a standard USB-C cable (provided) and a 5V 2A adapter (not provided), or using the solar power provided by the connected Solar Panel. 1. Download and install the eufy Security app, then sign up or create an account. 2. Follow the in-app instructions to add the camera to the device list.
