

Does homeowners insurance cover solar panels?

Solar panel insurance coverage is included in most homeowners insurance policies, which means no separate solar panel insurance is needed. Solar energy systems and the rooftop panels or tiles are largely considered a permanent attachment to your property, similar to a patio or a security system.

Do I need insurance if I don't own solar panels?

If your insurer doesn't provide coverage or provides limited coverage for solar panels, then you may need a separate policy. As with homeowners insurance, some solar panel insurers may not cover wind or hail damage. Do I need insurance coverage if I don't own the solar panels?

Does insurance cover roof-mounted solar panels?

Some insurers may not coverwind or hail damage to roof-mounted solar panels. If you have panels on top of a detached structure, such as a shed, it's possible the " other structures " coverage on your policy will cover them, but you should check with your insurer.

Should I Cover my solar panels when not in use?

Typically, it is not recommended to cover your solar panels when not in use. However, homeowners may want to cover them if their home is going to be vacant for an extended period of time. Of course, it all depends on how long you plan to not use your panels.

Are solar panels covered by a PPA?

If you subscribe to a PPA or lease your solar panels,a third party owns your system and is responsible for damage and maintenance. In this case, you will not be responsible for ensuring coverage, but you should talk to your lease or PPA provider before committing to make sure that any unforeseen damage will be covered.

How much does solar panel insurance cost?

The solar panel insurance cost will depend on various things like your location, your current coverage amount, the size and cost of your system, and your insurance company's plan. Claims for damaged solar panels would also vary based on your insurance plan, but likely follows the same process as other damaged property claims.
