

Solar panels photovoltaic panels for sale

What is a solar panel kit?

Our solar panel kits for home are easy for you or a contractor to install. Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. Take our quick questionnaire to create a custom solar panel kit based on your energy needs.

Where can I buy a solar power system?

Start your journey towards saving thousands at ShopSolar.com today! We specialize in the sale and installation support of complete solar kits, solar generators, inverters, batteries and more. We help anyone looking for a solar power system for their home, off grid cabin, tiny house, boat, or RV.

Are solar panels sold separately?

*Solar panels are not sold separately. Grid tie inverters convert solar DC power to home-friendly AC power and provide net metering capability. Batteries optimize cost savings by storing surplus energy when rates are lowest and utilizing it during peak demand times. They also serve as a reliable backup power source during outages.

What are all-inclusive solar kits?

These all-inclusive solar kits are designed for simplicity, featuring everything you need for a seamless setup and installation. With high-performance lithium battery options and versatile connectivity options, our solar power systems can be connected to solar, wind, backup generator, or utility grid sources.

Are solar panels UL certified?

New, UL test certified solar panels Grid-connected inverter, optimizers, or micro-inverters Mounting system for roof or ground Options for installation and off-grid storage battery Up to 30 year solar panel warranty Permit-ready building and electrical plans Step-By-Step installation instructions Lifetime technical support
