

# Solar panels rural scam

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.

What are the most common solar scams?

One of the most prevalent solar scams involves misleading lease agreements or power purchase agreements (PPAs). While these financing options are legitimate ways to access solar energy, unethical companies may misrepresent the terms or benefits of these agreements.

Should solar companies be able to report a scam?

By getting more consumers to report scammy solar companies, government officials said, they can more effectively track complaints and seek to hold accountable companies that violate the law.

Are door-to-door solar sales a scam?

Not all door-to-door solar sales are considered scams, but what they're pitching should be taken with a grain of salt. Going solar is expensive and shouldn't be an impulse decision, no matter how pushy the salesperson is. "Legitimate companies will answer your questions," McGovern said.
