

# Solar pole top bracket

Should I use pole mounts for my solar panels?

Pole mounts can be a suitable option for mounting solar panels if you don't want to mount them to your roof. They are easy to install and provide a way to mount the panels so that they are still off the ground and away from harm.

What is a pole mount solar rack?

The module rails are a mill-finish structural aluminum angle. These mounts include stainless steel module mounting hardware as well. Standard top-of-pole mounts are adjustable from 15 degrees to 65 degrees in 10-degree increments. These pole mount solar racks are made to mount on standard sizes of SCH40 steel pipe.

What is a top-of-pole mount kit?

RPS 8 Panel Top-of-Pole Mount Kits are compatible with customer supplied 4 1/2" OD Schedule 40 pipe. Sink pipe into cement like a fence post and all the hardware to mount panels will be included. It provides two sections of 81in of rails and is designed to mount eight 100W panels (Note, mount is not compatible with larger wattage panels).

How many solar panels can be installed on a single pole?

Pole Mounts are used for a single solar panel or multiple solar panels and can be configured for side-of-pole or top-of-pole installation of up to 12 solar panels in an array on a single pole.

What is a top-of-pole mount?

Our lines of Top-of-Pole Mounts are high-quality structures with heavy steel mounting sleeves and elevation pivots. The module rails are a mill-finish structural aluminum angle. These mounts include stainless steel module mounting hardware as well. Standard top-of-pole mounts are adjustable from 15 degrees to 65 degrees in 10-degree increments.

What is the best solar array mounting solution?
