

Solar power generation contracts are not online

What is a solar power purchase agreement?

With a solar power purchase agreement (solar PPA), you contract with a solar developer that pays for, installs, and maintains a solar system on your property.

Do solar projects need an EPC contract?

In our experience, most utility-scale solar projects use an EPC Contract. An operation and maintenance agreement: This is usually a medium- to long-term Operating and Maintenance Agreement (O&M Agreement) with an Operator. The term of the O&M Agreement will vary from project to project.

What if a developer offers a solar energy agreement?

When offered a solar energy agreement, remember attorneys working for the solar energy developer drafted the agreement. The attorneys' professional obligation was to prepare an agreement that was as favorable as possible for their client - the developer, not you.

What is a solar energy agreement?

For this guide, "solar energy agreement" will refer to the document or documents that work together to govern the relationship between the landowner and the party (or parties) constructing and operating the solar power project. These agreements are sometimes called "solar leases," "solar easements," or "solar power contracts."

Why are solar power purchase agreements gaining popularity?

Solar power purchase agreements are gaining popularity because they remove the biggest barrier to entry - the price tag of solar. Solar PPAs are popular because they can be structured with minimal upfront capital costs to the business owner.

What is a solar PPA agreement?

Under a solar PPA agreement, the solar developer retains responsibility for operating and maintaining the solar energy system over the life of the contract. They'll perform annual inspections, repair any damage, and monitor the system to ensure its performance is continually optimized.

Delve into utility-scale solar Power Purchase Agreements (PPAs) in this chapter from "The Law of Solar." Learn about revenue streams, contract structures, risk management, and key considerations for successful solar project agreements.
