

The country installs solar panels for free

Do Americans get free solar panels?

American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free panels. The U.S. government does not provide free solar panels, said a U.S. Department of Energy spokesperson. The department urges people to report scams to the .

Does the government offer free solar panels?

While the government isn't offering free solar panels, it offers a tax credit that can be claimed on federal income taxes for those who use solar power on residential property. The credit was increased and extended through 2034 by the Inflation Reduction Act.

Does the US government buy solar panels?

There is no such program. The U.S. government does not buy solar panels for American homeowners, according to the U.S. Department of Energy. Samah Shaiq, a Department of Energy spokesperson, directed USA TODAY to an article the agency published regarding inaccurate claims about free government solar panel offers.

Are free solar panels a scam?

Fact check: Government offers tax credits, not free solar panels Becca Jones-Albertus, the director of the Department of Energy Solar Energy Technologies Office, published another article warning the public about solar panel scams.

Can you get a tax credit if you buy solar panels?

"The federal government does not have any programs that install solar panels on the homes of Americans for free," Jones-Albertus wrote. "A 30% tax credit is available to those who purchase a solar energy system."

Are free solar panels worth it?

"Free" solar panels will save you money because energy from solar power is usually less expensive than energy from the electrical grid. Keep in mind, however, that these savings from solar energy are possible regardless of if your solar panels are leased versus purchased. The long-term cost savings help you determine if solar panels are worth it.
