

The price of solar panels

How much do solar panels typically cost?

The average cost to install solar panels in the United States is about \$12,000 after federal tax incentives. On the low end, you can install a smaller system for around \$5,000, while a high-priced Tier 1 solar panel system can cost \$40,000 or more. There are additional costs that go into an installation project beyond the price of panels.

Are solar panels worth the investment?

For most people, solar panels are worth the investment, but they may not be right for you in some rare circumstances. However, even renters may have solar options if their property owners or managers are open to it - and if not, they might be able to sign up for community solar projects near them.

How much does it cost to produce solar energy?
