

# Trina Energy Storage and Trina Solar

Who is Trina storage?

As the energy industry warms up to this technology, utilities, developers and power producers across the globe are faced with the critical challenge of finding the right energy storage partner. Trina Storage, bringing 26 years of solar experience comes with the vision to be the world-leading PV and smart energy solution provider.

Who is Trina Solar?

With a 20-year heritage in PV solutions, Trina Solar provides the most efficient and optimal energy storage systems for utility and grid operator customers. We deliver enhanced PV generation that achieves maximum consumption. Smart design with an optimized and cost-efficient solution Tier 1 hardware and software

Why should you choose Trina storage?

Vertical integration across allows Trina Storage to deliver next-generation solutions while, lowering cost through economies of scale and improving cell performance Rated 100% bankable for nine consecutive years, Trina Storage combines premium hardware, advanced software, and reliable services to meet diverse market needs.

Is Trina storage bankable?

Rated 100% bankable for nine consecutive years, Trina Storage combines premium hardware, advanced software, and reliable services to meet diverse market needs. TrinaTracker has widespread compatibility with most major PV modules. However, unlike other module original equipment manufacturers (OEMs), Trina Solar is...

What makes Trina a good bank-able module supplier?

Trina was ranked top bank-able module supplier by BloombergNEF four times in a row (2015-2019). We provide storage at the highest safety standards. We only use safe components such as state-of-the-art batteries. As a result, we have an excellent safety record. Every product we deploy has been comprehensively tested by the supplier.

What services does Trina offer?

Trina offers a range of services from basic to premium options based on customer needs. 4200m<sup>2</sup>; planned area of base, strong integration capacity, fully integrated product designed for grid service KPIs. Rack record of successfully deploying projects with a customer-centric approach.

A trailblazer in solar since 1997. With over 205 gigawatts shipped worldwide and counting, Trina's photovoltaic panels and solar system components provide clean, affordable and reliable ...
