

# What is the warranty certificate for photovoltaic panels

What should I look for in a solar panel performance warranty?

Ideally, you should look for a solar panel performance warranty with the following conditions: Some solar manufacturers will guarantee a degradation rate as low as 0.25% per year, and a performance warranty period of up to 30 years. The best solar companies offer homeowners an installation warranty of their own.

What types of warranties cover solar panels?

There are two basic types of warranties that cover solar panels. A product warranty protects you from defects in a solar panel stemming from material quality or manufacturing errors. This is also referred to as an equipment or materials warranty.

How long is a solar panel warranty?

The length of a solar panel warranty varies depending on the manufacturer, but a 10-year product warranty and a 25-year performance warranty are considered a bare minimum in the solar industry. Some manufacturers offer a 25-year product warranty and a 30-year performance warranty. How long should solar panels last?

Are solar panels covered under Artistry warranty?

Nevertheless, certain solar installation companies will cover this under their artistry warranty. A solar panel's performance warranty, often known as its power output warranty, guarantees that it will produce at least some quantity of electricity for a set period after its expected 25-year lifespan has passed.

How do I get a solar panel warranty?

Generally, the most robust warranties are obtained by hiring installation companies certified by the solar brands they represent. Alternatively, long warranties can also be secured from solar manufacturers that provide their own installation services. What Is Not Covered by a Solar Panel Warranty?
