What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

How does a solar installer work?

Typically, a solar installer will work with a separate leasing company to offer a solar lease. The installer is responsible for designing, installing, and maintaining the solar panels. Solar leases are very similar to power purchase agreements (PPAs). With both options, a solar developer installs and owns the solar panels on your roof.

Are solar panels paying rent for your roof?

Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity. They'll make money from the electricity you don't use. All excess electricity generated is sold back to the grid via the Smart Export Guarantee (SEG) scheme.

Does a solar lease cover a roof penetration warranty?

As well as covering the costs of the solar panel system, most solar lease suppliers also cover a roof penetration warranty. In some parts of the US, the weather is notoriously unreliable, which means solar panels can generate more energy on some days compared to others.

Can you buy a house with rent-a-roof solar panels?

Buying a house with Rent-a-Roof solar panels could lead to mortgage complications. For example, if the lease includes maintenance cost obligations, or if there are certain access rights granted to the installer, a mortgage provider could be unwilling to lend.

What should you look for in a solar lease?

An annual escalator is another essential thing to look out for in a solar lease. These are becoming less common, but if included, they will increase your monthly payment by a preset rate over your term length (typically 1-5% each year). As with any solar financing option, solar leasing comes with its share of pros and cons:

To read the full YSG Solar guide to renting your roof for a solar panel installation, head over to our blog post at [this link](#). We cover all the benefits of renting your roof for solar, explain how the process works, and answer ...
